

LIST OF FACILITIES PROVIDING VETERINARIAN-SUBSIDIZED SPAY/NEUTER SURGERIES

The following veterinary clinics have signed an agreement with the County Department of Animal Services to abide by the prices listed. Spay/Neuter surgeries are performed **BY APPOINTMENT ONLY**. When you call to make an appointment, please state that SNAP referred you for the Low-Cost Spay/Neuter Program. If you do not specify that you have been referred for this program, you will receive different pricing.

Some veterinary clinics may offer you additional services (vaccines, pain medication, fluids, antibiotics, etc) at additional fees. Please feel free to discuss whether you feel that the additional services are needed and whether you can afford additional services. The offer of additional services varies from office to office. According to the agreement with the Department of Animal Services, additional services can be recommended but cannot be required. If your pet is over 7 years of age, a geriatric blood screening is advisable to determine if any underlying conditions might be identified that might increase the risk of surgery and so that necessary adjustments might be recommended.

SNAP welcomes your feedback regarding the program - if you had a good experience or if you had concerns. Thanks so much for fixing your pet(s) and making sure that they don't contribute to pet overpopulation.

#	Zip Code	Name of Veterinary Facility	Name of Veterinarian	Office Phone Number	This Facility Provides Veterinarian-Subsidized Spay or Neuter Surgeries for:				Address

* Care & Comfort Veterinary Hospital requires that you purchase pain medication to take home. There is an additional \$10 fee, per animal, for the medication.

NOTE

It is recommended that you read, print, and retain the fees and program rules listed below for reference when discussing spay/neuter services with the participating veterinary facility.

Charges to Pet Owners:

The veterinary facility may charge an amount equal to or less than the fees specified in the following chart for performing a spay or neuter surgery:

	Maximum Standard Fees	Including Pain Mgmt. Meds.
Cat Neuter	\$40.00	\$50.00
Cat Spay	\$50.00	\$60.00
Dog Spay		
Up to 40 pounds	\$65.00	\$85.00
Over 40 to 80 pounds	\$85.00	\$105.00
Over 80 pounds	\$105.00	\$125.00
Dog Neuter		
Up to 40 pounds	\$55.00	\$75.00
Over 40 to 80 pounds	\$75.00	\$95.00
Over 80 pounds	\$95.00	\$115.00

The Maximum Standard Fees listed above also include the costs for postoperative care, including suture removal, medication, and hospitalization required as a result of the surgery (except for complications caused by a pre-existing medical condition or an owner's negligence or lack of proper care and attention)—but in no case for longer than 14 days following the surgery.

When a dog is delivered for surgery, the veterinarian will weigh the animal to determine the correct charge for surgery.

The veterinarian may offer or recommend post surgical pain management medication (i.e., medication to manage pain for a period of at least 36 hours after the surgery). However, the veterinarian shall not require this medication. If the owner accepts such an offer or recommendation, the fee for such medication shall not exceed \$10.00 per cat or \$20.00 per dog.

The veterinarian may add the following fees to those listed in the chart above for the following health conditions:

Cat in heat:	No additional fee
Dog in heat:	\$30.00
Pregnant cat:	\$15.00
Pregnant dog:	\$30.00
Cryptorchid:	\$30.00
Umbilical hernia:	\$15.00

The veterinarian may require the owner to furnish or purchase an e-collar to be worn by the animal during the post-surgery recovery period.

The veterinarian may offer or recommend pre-op blood work, a comprehensive physical examination, vaccinations, deworming, bathing, flea control, or other veterinary services. However, the veterinarian shall not require any of these services in relation to the veterinarian-subsidized spay/neuter surgery performed. If the veterinarian recommends or offers any such services, the veterinarian shall also clearly explain to the pet owner that approval of such additional services and fees is at the discretion of the pet owner, and that such additional services are not required to meet minimum professional veterinary care standards.
